

SIDE LETTER — SERIES A3-EXT. PREFERRED FINANCING

Counterparty: Mira Capital Mauritius Pte Ltd. ("Investor")

Company: Sundar Foods Pvt. Ltd. ("Company")

Effective: 14 February 2025 (Series A3-Ext. closing)

Reference: Share Subscription Agreement of even date and Articles of Association

1. Liquidation Preference (overriding Articles)

Notwithstanding anything in the Articles or the Shareholders' Agreement to the contrary, the Investor's CCPS Series A3-Ext. shall be entitled to a liquidation preference equal to **two times (2.0x)** the subscription amount paid (non-participating, non-cumulative), payable in priority to all junior series and *pari passu* with any subsequent CCPS Series B or later issuance unless otherwise expressly subordinated by written agreement of the Investor.

2. Anti-Dilution

The Investor's CCPS Series A3-Ext. shall **not be subject to any anti-dilution adjustment** on issuances of equity securities at a price per share lower than the Investor's Issue Price. The Investor's economic protection in a down-round shall be limited to the 2.0x liquidation preference in Clause 1 above.

3. Most-Favoured-Nation

If, prior to the earlier of (a) an IPO of the Company and (b) the third anniversary of this letter, the Company grants to any subsequent investor terms that are, in the aggregate, more favourable to such investor than the terms granted to the Investor herein (excluding, for the avoidance of doubt, the Articles entitlements available to all preferred holders), the Investor shall have the right, exercisable by written notice within forty-five (45) days of receiving disclosure, to elect to apply such more-favourable terms to the Investor's holdings on a *clause-by-clause* basis.

4. Information Rights

Monthly unaudited management accounts within 21 days of month-end; quarterly board pack; annual audited financials within 120 days of fiscal year-end.

5. Open Items (initialled at closing)

Q: Does Clause 3 (MFN) extend to anti-dilution variants granted to subsequent CCPS series, or is it limited to economic (LP / participation / dividend) terms only?

Q: Is the 2.0x LP under Clause 1 carved out from MFN cherry-picking by subsequent investors (i.e., can a later investor claim 2.0x via MFN by waiving its own AD)?

TODO: Tax counsel to opine on whether 2.0x LP triggers withholding under Section 115O on deemed dividend characterisation in a wind-up scenario.
