

SHAREHOLDERS' AGREEMENT — EXCERPT

Sundar Foods Pvt. Ltd. — Series B-1 Financing

Excerpt: Section 4 (Investor Protections) — extracted by company counsel, 18 March 2026

FOR DUE DILIGENCE USE ONLY. Full SHA available on request.

4.6 Anti-Dilution Adjustment — Series B-1 Preferred

(a) **Standard Adjustment.** Subject to clause 4.6(b) below, the Conversion Price of each CCPS Series B-1 share shall be adjusted in the event of an Additional Issuance at a Lower Price on a *broad-based weighted average* basis, using the formula set forth in Schedule 4.6-A.

(b) **Full-Ratchet Override.** Notwithstanding clause 4.6(a), if any Additional Issuance occurs within twenty-four (24) months of the Series B-1 Closing Date and at a price per share less than 75% of the Series B-1 Issue Price (₹50.00), then the Conversion Price of each CCPS Series B-1 share held by the Lead Investor (TigerLion India II Mauritius) shall be adjusted on a **full-ratchet** basis to equal the Additional Issuance price. The Full-Ratchet Override shall *not* apply to any other holder of CCPS Series B-1 unless such holder is expressly designated in this Agreement.

(c) **Carve-outs.** The following issuances shall not trigger any adjustment under this Section 4.6: (i) ESOP grants up to the Authorised Pool; (ii) issuances on conversion of any then-outstanding SAFE or CCD that was issued prior to the Series B-1 Closing Date; (iii) issuances in connection with a bona fide strategic partnership, joint venture, or commercial agreement, subject to a maximum of 2.0% of the fully diluted share capital in any 12-month period.

4.7 Pay-to-Play

If any holder of CCPS Series B-1 fails to subscribe for at least its Pro Rata Share in a future Qualified Financing, such holder's CCPS Series B-1 shall automatically convert into Equity Common on a 1:1 basis and the holder shall forfeit the benefit of Section 4.6.

Schedule 4.6-A — Broad-Based Weighted Average Formula (reference)

$$CP' = CP \times (A + B) / (A + C)$$

where —

CP = Conversion Price in effect immediately prior to the Additional Issuance

CP' = Conversion Price after adjustment

A = Total outstanding Equity Common on a fully diluted as-converted basis (incl. all options and SAFEs)

B = Shares that would be issued at CP for the consideration received

C = Shares actually issued in the Additional Issuance

Open items (counsel note)

Q: Does the Section 4.6(c)(ii) carve-out cover SAFEs that converted AFTER the Series B-1 Closing Date but were ISSUED prior? (Plain reading suggests yes; investor counsel disagrees.)

Q: Is the 24-month window in 4.6(b) tolled by an IPO filing?
