Re: Series B-1 issuance – anti-dilution adjustment under SHA §4.4(b)

Dear Sirs,

We refer to the Series B-1 closing of 15 March 2026 at an issue price of ■50.00 per CCPS, and to clause 4.4(b) of the Shareholders' Agreement dated 21 September 2021. The price at which CCPS Series B-1 has been issued represents a Lower Price as compared to the issue price of CCPS Series A1 (■10.00) on a broad-based weighted average basis, and accordingly the Conversion Ratio of CCPS Series A1 (currently 1:1) requires recalculation. We have computed the revised Conversion Ratio as approximately 1.073:1 (subject to verification). Please confirm by return.

Yours faithfully,

[illegible signature]

Vivek Rao, Partner – Surya Capital
